Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE *1* MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.
- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1.   Claims 12-42 are pending.

Election/Restrictions

2.   Restriction to one of the following inventions is required under 35 U.S.C. 121:

> I.   Claims 1-30, drawn to a system comprising of: a host server; at least one
>
> transaction device; 5 at least one service provider system; and a content
>
> management system,", classified in class 711, subclass 135.
>
> II.   Claims 31-42, drawn to a method of performing an electronic transaction with
>
> electronic goods and/or services", classified in class 705, subclass , subclass 27.

3.   The inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are

mutually exclusive (i.e., there is no product (or process) that would infringe both of the

identified inventions); the inventions as claimed are not obvious variants; and the inventions as

claimed are either not capable of use together or can have a materially different design, mode of

operation, function, or effect. See MPEP § 806.05(j).

4.   Restriction for examination purposes as indicated is proper because all these inventions

listed in this action are independent or distinct for the reasons given above and there would be a

serious search and examination burden if restriction were not required because one or more of

the following reasons apply:

> (a) the inventions have acquired a separate status in the art in view of their different
>
> classification;

(b) the inventions have acquired a separate status in the art due to their recognized

divergent subject matter;

(c) the inventions require a different field of search (for example, searching different

classes/subclasses or electronic resources, or employing different search queries);

(d) the prior art applicable to one invention would not likely be applicable to another

invention;

(e) the inventions are likely to raise different non-prior art issues under 35 U.S.C. 101

and/or 35 U.S.C. 112, first paragraph.

5.   **Applicant is advised that the reply to this requirement to be complete must include**

(i) an election of a invention to be examined even though the requirement may be traversed (37

CFR 1.143) **and (ii) identification of the claims encompassing the elected invention**.

6.   The election of an invention may be made with or without traverse. To reserve a right to

petition, the election must be made with traverse. If the reply does not distinctly and specifically

point out supposed errors in the restriction requirement, the election shall be treated as an

election without traverse. Traversal must be presented at the time of election in order to be

considered timely. Failure to timely traverse the requirement will result in the loss of right to

petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate

which of these claims are readable on the elected invention.

7.   If claims are added after the election, applicant must indicate which of these claims are

readable upon the elected invention.

8.   Should applicant traverse on the ground that the inventions are not patentably distinct,

applicant should submit evidence or identify such evidence now of record showing the

inventions to be obvious variants or clearly admit on the record that this is the case. In either

instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence

or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

9.   Because these inventions are independent or distinct for the reasons given above and

there would be a serious burden on the examiner if restriction is not required because the

inventions have acquired a separate status in the art in view of their different classification,

restriction for examination purposes as indicated is proper.

10.   A 1-month (not less than 30 days) shortened statutory period will be set for reply when a

written restriction requirement is made without an action on the merits (See MPEP 810 [R-3]).

11.   Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Evens Augustin whose telephone number is 571-272-6860. The

examiner can normally be reached on Monday thru Friday 8 to 5 pm.

12.   If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Andrew Fischer can be reached on 571-272-6779.
